                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |        |         |         |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |      |  |  |  |
